Experienced Cable Puller (Power Cables)

Description

Red Bird Network Solutions is looking for an experienced Cable Puller to join our growing team. We are seeking a reliable, hardworking individual with proven site experience specifically in pulling and routing power cables across commercial and industrial projects nationwide.

Responsibilities

- Pulling and routing power cables
- Assisting with containment installation including tray, ladder rack, and basket
- Working safely at height (IPAF required)
- Reading and following site drawings and instructions
- Supporting engineers and supervisors on-site
- Maintaining high standards of health and safety at all times

Qualifications

- Valid CSCS/ECS card
- IPAF license (essential)
- Proven experience pulling power cables on construction sites
- Willingness to travel nationwide (essential)
- Ability to work as part of a team and independently
- Strong work ethic and attention to detail

Job Benefits

- Competitive hourly wage (based on experience)
- Ongoing nationwide project opportunities
- Supportive and professional working environment
- Opportunity to grow with an expanding company
